# THE PROBLEM

On any given day in Palm Beach County, OVER 1,400\* CHILDREN are displaced due to abuse, abandonment, and neglect in their home. More than half are under age 5. Spanning from newborn to teenager, these children have unique physical, social/emotional, educational, and normalcy needs. Children typically remain in the foster care system for a year or longer and cannot return home to their parents until the court allows. While childhood is fleeting, each day feels like a lifetime to a child waiting to go home. These children need community and peer support to know their value and reach their full potential.
